By Donald Bers : Excitation-Contraction Coupling and Cardiac Contractile Force (Developments in Cardiovascular Medicine) original article cardiac resynchronization therapy with or without an implantable

defibrillator in advanced chronic heart failure michael r bristow md leslie a 2004 research publications 2004 research publications are listed alphabetically by section name below please note that copies of these publications are not held
Excitation-Contraction Coupling and Cardiac Contractile Force (Developments in Cardiovascular Medicine):

0 of 0 review helpful Great quality By Apriliris It was described as like new And it s exactly like a brand new book
Very clean with no notes on it I am very satisfied with the quality 1 of 1 review helpful The Bers book Better than ever
By Lars S Maier Here it is The second edition of the classic Bers book Still easy to read up to date information with
How is the heartbeat generated What controls the strength of contraction of heart muscle What are the links between
cardiac structure and function How does our understanding of skeletal and smooth muscle and non muscle cells
influence our thinking about force development in the heart Are there important species differences in how contraction
is regulated in the heart How do the new molecular data fit together in understanding the heart beat What goes wrong
in Since the first edition of Excitation Contraction Coupling and Cardiac Contractile Force was published 10 years ago
it has become a classic The second edition is stunning It retains the zest and compact form of the fi
