helpful Higher learning is a scam By Customer Total rip off The book reps mislead my program on what was included with their book So we the students were forced to buy a 300 book thinking the access code in that provided access to prepU no reason i Adaptive Learning Powered by PrepU provides students with the practice they want and need ndash at their own pace and based on their level of understanding The adaptive nature of PrepU means that each student rsquo s experience is personalized and different ndash so their study time is more effective and efficient and their retention of course material and success rates increase nbsp Instructors will have a better window into their students rsquo performa
